We are so excited to have you on board with our Creative Team for your social media and copywriting needs. Answering a few questions about your future, goals, and voice/tone will help us ghostwrite most efficiently for you. The more we know about you, the more accurately we can portray your vibe and essence online. This information will be shared with your copy team. Please answer all questions to the best of your knowledge and more if you can! The more complete your questionnaire is, the better we can help you reach your target audience.

To give our copywriters (possibly even your followers!) a good perspective on who you are, how you began/where you are now, can you tell us a little bit about your company/personality so we have a focus for your brand?

- 1 We need to understand the business points of your followers/customers? What is their focus? What are your top 3 competitor websites (please link)? [We ask so we can do better than they do!]
- 2 Can we gather their tone and voice to create a sound you're going for? (If not please supply three sites in order of preference of brands/companies you like) What makes you different/unique from them? What can your customers expect from you that is unlike any other company or brand?
- 3 What marketing monthly timeframe/priority do you have for your projects?
- 4 What are your immediate goals and hopes? What did you hire us to do? [We want to ensure you always stay happy and we are in line with your idea] Additional branding to help us tell our unique and exciting story and to promote our business to a wider audience.
- 5 Where do you feel your company/brand problems arise? How can we assist? (motivation, style, coaching, copywriting, idea development, PR, art/animation, meeting deadlines, consulting, advertising, client acquisition)

Please send these answers back within 24 hours to stay in queue above other clients.  
Please add in any copy, social, or design projects we may need to be aware of in order to assist you.

\*In order to ensure accuracy with live interaction – there is never more than 1 copywriter per every 2 platforms.
